Smart Performance

Powered by top-grade components and technologies, the ASUS Pro Series helps you easily multitask your office work. Models feature Intel® 2nd generation Core™ processors with powerful integrated graphics and support for up to 8GB of DDR3 memory to best handle your workload.

Support USB3.0 and SATA 6.0Gb/s

Experience ultra-fast data transfers at 4.8Gbps with USB 3.0. USB 3.0 transfers data 10X faster and is also backward compatible with USB 2.0 components. Intel® H61 Chipset natively supports next-generation Serial ATA (SATA) storage interface, this motherboard delivers up to 6.0 Gb/s data transfer rates.

Hassle-free Expandability

Modular design lets your business expand easily as needed, adding hard drives, memory, PCI cards, and USB devices. The easy-to-service chassis design helps maximize uptime, making upgrades and routine maintenance effortless.

Stringent Quality Tests

All commercial models are tested to operate in the 0-50˚ C range and in even the most humid environments safely for over 70 consecutive hours. To simulate shipping, Pro Series products are dropped from different angles to ensure unwavering solid quality.

100% Solid State Capacitors for Ultra Reliability

ASUS Pro desktops are made with the world's best motherboards and solid state capacitors. High-quality components provide utmost durability, improved longevity and enhanced thermal performance.

EPU- Up to 40% Energy Saving

The exclusive ASUS EPU chip is the world's first PC energy saving controller, optimizing efficiency by detecting real time CPU loads and saving up to 40% on overall power consumption.

F9 One Key Restore

Displays an image file with manufacturer's system parameters, including operating system and default settings. Easy-setup resets to default with no recovery CD.
