BP6320
Reliable, secure, and efficient commercial desktops

Management

Smart Performance
Powered by top-grade components and technologies, the ASUS Pro Series helps you easily multitask your office work with Intel® 2nd generation Core™ processors. BP63 series are booksize PCs that saves 65% space than tower PCs.

AI Suite II
AI Suite is a user-friendly, all-in-one interface that integrates ASUS utilities. It allows users to check system information, update BIOS, and access other ASUS-exclusive utilities.

Built-in COM and Parallel Ports*
The BP6320 features a modular design that offers more flexible support for hard drives, RAM, PCI cards, and USB devices — ideal for ever-expanding businesses. The defaulted COM and optional on-board parallel ports leave PCI slots open available for additional upgrades. An easy-to-service chassis design helps maximize uptime by making upgrades and routine maintenance effortless.(*optional)

Security

Chassis Intrusion Alert*
Brings up special security notices the next time you boot your computer in the event the case has been opened without your knowledge, further ensuring the safety of components and data.(*optional)

F9 One Key Recovery
Your data always stays secure with one key, single click recovery. Quickly back up data on your system partition (C drive), and then easily restore when required.

Reliability

100% Solid Capacitors
ASUS Pro Series desktops are made with the world's best motherboards and employ premium solid capacitors. High quality components provide utmost durability, improved longevity, and enhanced thermal performance.

Stringent Quality Tests
All commercial models are tested to operate in the 0°-50° C range and in even the most humid environments safely for over 70 consecutive hours. To simulate shipping, Pro Series products are dropped from different angles to ensure unwavering solid quality.
