

P552w firmware upgrade instruction

Improvement:

- Optimized power consumption.
- Optimized “power saving mode”
- Optimized camera function
- Optimized voice quality of phone call
- Improved the stability of GPRS connection and “Internet Sharing” function
- “Anytime launcher” patch pre-built

Caution:

- Do not interrupt the upgrade process and avoid touching keypad and screen when upgrading.
- Please make sure battery level is above 60%
- Firmware upgrade will delete all personal info from P552w.
- If you want backup your personal info via “ASUS BACKUP”, please:
 - (1) Remove all 3rd party software such as CE-STAR, Tai-G first before you backup personal info.
 - (2) Please reinstall 3rd party again after firmware upgrade & backup data recovered.

Installation method:

Unzip the file to your computer and then tap .exe file to start upgrade process.
