Product Update Notice

This notice updates the information in the user's manuals for the following products:

- CUR-DLSR Motherboard (E630)
- AP1400R 1U Rackmount Server (E628)
- AP2400R 2U Rackmount Server (E750)

This insert sheet should form part of the documentation for the above products.

> **IMPORTANT**
>
> The PCI slot mounted on the CUR-DLSR motherboard is 64-bit/66MHz.
>
> The PCI slot supports one full-length 64-bit/66MHz PCI card in the AP1400R server, and up to three full-length PCI cards in the AP2400R server.
