

Welcome!

Thank you for purchasing an **ASUS® Radeon™ 9200SE Graphics Card!** With this purchase, you join the elite crowd of graphics enthusiasts.

Powered by the **ATI® Radeon™ 9200SE** visual processing unit (VPU), this graphics card supports Microsoft® DirectX® 8.1 programmable shaders to deliver leading-edge graphics performance. The card provides outstanding image quality for realistic video output when playing games or running other graphical applications. With the **ASUS® Radeon™ 9200SE**, you will definitely experience stunning, dynamic, realistic 3D graphics!

Key Features

- **ATI® Radeon™ 9200SE VPU**
- **SMARTSHADER™** provides hardware-accelerated support for DirectX® 8.1 programmable vertex and pixel shaders to enable realistic texture and lighting effects
- **SMOOTHVISION™** generates the sharpest and clearest images through full scene anti-aliasing and anisotropic filtering modes
- **HYDRAVISION™** provides flexible and user-friendly interface for multiple display settings
- **FULLSTREAM™** removes blocky artifacts from streaming Internet video
- **VIDEO IMMERSION™** supports digital and high-definition video
- **Built-in 64MB/128MB Double Data Rate frame buffer** provides more resolutions and color depths up to 2048x1536 @ 85Hz
- **AGP 8X support** maximizes the 2.1GB/s AGP 8X bandwidth for more realistic graphics
- **Supports Microsoft® DirectX® 8.1 and OpenGL® 1.4**
